Governor's Budget Workshop

ABOUT THE WORKSHOP

Governor Gavin Newsom's first State Budget was based on his campaign priorities and a steadily growing state and national economy. His second State Budget proposal was full of optimism and new spending priorities, nearly all of which were derailed by the COVID-19 health and economic crisis. His third State Budget proposal will demonstrate his policies and priorities amidst competition for resources in this evolving economic and health environment.

The release of the Governor's State Budget proposal begins the process for legislative consideration of the State Budget, but it also provides critical information for development of school agency budgets. The Governor's Budget proposal for 2021–22—especially the specifics for K–12 education—will be of vital importance to the state's education community. The best way to receive an overview of the Governor's priorities and to get an explanation of the proposed State Budget's underlying details will once again be at School Services of California Inc.'s (SSC) Governor's Budget Workshop.

As always, the workshop will focus on the major policy issues and funding proposals of the Governor, and it will provide sufficient detail for local educational agencies (LEAs) to project their revenues for 2021–22—and for the balance of 2020–21—in accordance with the Administration's Budget recommendations and fiscal assumptions. The workshop will also offer SSC's insights and advice on what LEAs should do now to prepare for the upcoming year. We look forward to joining you on this important journey.
