October 30, 2019

Dear County and District Superintendents and Charter School Administrators:

**Timeline for Reporting Local Indicators in the California School
Dashboard When Affected by Natural Disasters or Power Outages**

Many local educational agencies (LEAs) and schools statewide have been impacted by recent wildfires and power outages throughout California. The California Department of Education (CDE) is reaching out to the LEAs and charter schools affected by these events to provide guidance related to the requirement to report local indicators in the California School Dashboard (Dashboard).

The established deadline for reporting on the status of local indicators is November 1, 2019, at 5 p.m. The Dashboard will automatically default to "Not Met" or "Not Met for Two or More Years," as applicable, for LEAs that have not reported the status of their local indicators by the deadline.

For LEAs unable to meet this deadline due to the recent wildfires and/or power outages, the CDE will work on a case-by-case basis to establish a timeline for reporting the status of its local indicators in the Dashboard. Any affected LEA unable to meet the November 1 deadline for local indicators should notify the CDE's Local Agency Systems Support Office by noon on Wednesday, November 6, 2019.

Additional information regarding the local indicators is available on the CDE Local Indicators web page at <https://www.cde.ca.gov/ta/ac/cm/localindicators.asp>.

If you anticipate not meeting the reporting deadline or have additional questions, please contact the Local Agency Systems Support Office by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeff Breshears".

Jeff Breshears, Administrator
